Puppy dog licking screen

Screensavers Planet » Screensavers » Dog Licking Screen This Licking Dog screensaver consists of a looping video of a real pug licking a glass panel, giving the impression that it is, in fact, licking your screen from the inside. However, your screen may not look much cleaner afterwards. Sound effects are not included. Free 2.36 MB for Windows 60.974 Download Screenshots Anti-virus Help Our editors reviewed all the files and found that they are safe, but they are also automatically scanned using many different virus scanners. We are happy to share the results. You can't move online to the smashed-face puppies. They're up there with cute bunnies and funny cat gifs in terms of popularity. So if you love pugs too (which you obviously do) here's a website that will keep you entertained for hours. There's nothing else, but it doesn't have to be. Click here to see the pug licking your screen PRO-TIP: Hit f11 for full screen that bad boy. What a cute puppy, isn't it? You better like and tweet about this super cute thing! Tweet Watch this cute puppy cleaning your screen! Watch this puppy licking your computer screen all clean. Cute little thing!
